

**AMENDMENTS TO THE SPECIFICATION:**

At page 3, line 30 through page 4, line 7, please replace the paragraph as indicated:

The embodiments of the invention are applicable to electronic devices, such as a mobile station used as a terminal in telecommunication systems comprising one or more base stations and terminals communicating with the base stations, for example. The device may be used for short-range communication implemented with a Bluetooth chip, an infrared or Wireless Local Area Network (WLAN) connection, for example. The electronic device is, for example, a portable telephone or another device including telecommunication means, such as a portable computer, a personal computer, a handheld computer or a smart telephone. The portable electronic device may be a PDA (Personal Digital Assistant) device including the necessary telecommunication means for establishing a network connection, or a PDA device that can be coupled to a mobile telephone, for instance, for a network connection. The portable electronic device may also be a computer or PDA device including no telecommunication means.
